Dear Parents and Carers,

I am writing to ask for your urgent support with parking outside school.

Yesterday, children on a coach, returning from swimming, were unable to access the school safely due to cars being parked directly outside the gates and along both sides of the road. This caused a delay in children being dropped off safely, and it created an unnecessary risk.

The safety of our children is always our top priority. For this reason, I must remind all parents and carers not to park outside or block the school entrance at any time. This area must remain clear for school buses, emergency vehicles, and for the safe arrival and departure of all pupils.

Please ensure that when you drop off or collect your child, you park safely and considerately in the surrounding area. I appreciate this may sometimes mean allowing a little extra time to walk, but it makes a huge difference in keeping everyone safe.

Thank you for your cooperation and continued support in ensuring the safety of all children in our care.

Kindest Regards,

Joanna Curry
Head Teacher
