

Geography Knowledge Organiser		Year 3	Land Use
Key question:			
What facilities are in my local area and how do people travel there?			
Summary			
We will be Geographers exploring our local area and the way the land is used through fieldwork. As geographers we will learn to identify the different types of settlements and land use in the United Kingdom. We will continue to develop our geographical skills and vocabulary.			
Key Vocabulary		Key Questions	
Facilities: Places or things that help people do activities. For example, a playground or a swimming pool. Land Use: How land is used for different things, like building houses, farming, or making parks. Population: The number of people living in a certain place, like a town or city. Settlement: A place where people live, like a village or town. Hamlet: A very small settlement with just a few houses and no shops or services. Village: A small settlement, bigger than a hamlet, with houses, a church, and maybe a shop or school. Town: A settlement larger than a village, with shops, schools, and public services. City : A large settlement with many buildings, jobs, transport, and services. Often has a cathedral or university. Rural Definition: An area in the countryside with small settlements and lots of open land. Urban: A busy built-up area like a town or city.		- What are the types of land use? - What are the important features of a settlement? - Why do settlers choose specific places? - How can I record the facilities that are available in my local area? - How can I present and analyse information about local facilities?	
		Previous Knowledge	
		Physical features: a beach, cliff, coast, forest, hill, mountain, sea, ocean, river, soil, valley, vegetation, season and weather and Human features: a city, town, village, factory, farm, house, office, port, harbour and shop. - Using photographs, plans and maps with keys. - Using simple fieldwork and observational skills around our school and its grounds.	
In geography we are... - Exploring the physical features of the Earth's surface. - Studying different places and the relationship between people and their environments. - Developing map and fieldwork skills to make observations, measurements and recordings.		 Google map image of the local land use.
