

Immersive Day – Year 2

Representing Life at Sea and the Changes over Time

Dear Parent/Guardian,

This half-term in our History lessons, we have been learning about Changes over Time; with a particular focus on Life at Sea.

During this topic, we have researched about Pirates; including famous pirates, The Pirate Code and The Golden Age, the Royal Navy, the Titanic, sea safety and current methods of sea travel and their purposes.

We have been making comparisons by considering how things have changed over the years at sea and the reasons behind these changes.

With this in mind, to conclude the topic we will be having a 'Life at Sea Day', which will be held on **Thursday 22nd October 2026**.

This will be our 'fabulous finale' to this topic and we would like to invite the children to come dressed as someone/something linked to life at sea over the years.

This could be a pirate, something linked to sea travel or related to the Titanic. It would be great if the children could bring a fact relating to their outfit and if you have any recent experiences of sea travel, we would love to hear about these too!

Please be as creative as you can, there is no pressure to buy a costume.

We look forward to the children being fully immersed in this fact-filled finale of how life at sea has changed over time!

Many thanks,

The Year 2 Team

Mrs Braid, Miss Stevens, Mrs Silvester and Miss Underwood
